RE: FDA Form Letter – Rubber Sheet & Gaskets

To Whom it May Concern:

21CFR 177.2600 is the FDA regulation covering rubber articles intended for use against food. Style 8316 gasketing (60 duro off-white EPDM rubber) and the STRESS SAVER 6800 (65 durometer off-white EPDM molded rubber gasket) are in compliance with FDA regulations for use against aqueous foods only. Style 8316 and 6800 are not acceptable for use against fatty type foods. Style 9064 gasketing (60 duro off-white neoprene rubber) also complies with FDA regulations. All three styles' ingredients and extract requirements are qualified under 21CFR 177.2600.
