

# Sealing Integrity for Mining

**Garlock**  
an EnPro Industries family of companies

Garlock KLOZURE® is a global leader in dynamic sealing products for every major industry, including the mining industry. Headquartered at a state-of-the-art manufacturing facility in Palmyra, NY, Garlock KLOZURE® is the only manufacturer offering oil seals, bearing isolators and mechanical seals.

For the past 100 years, Garlock products have been renowned for their innovation, quality, service and value.

Garlock KLOZURE® products are engineered with innovation, manufactured with CNC controlled equipment and hand inspected for precision and quality.

To ensure high-productivity, the lowest operating costs and the longest service life, there is no better choice than Garlock KLOZURE®.

### BEARING ISOLATORS

In certain applications, a bearing isolator may best suit your needs. Choosing one of the patented designed isolators from Garlock Klozure will leave your investments in good hands.

#### GUARDIAN™

A metallic bearing isolator with a patented cam-lock system for ease of installation. Available in a broad range of configurations for all your equipment needs.

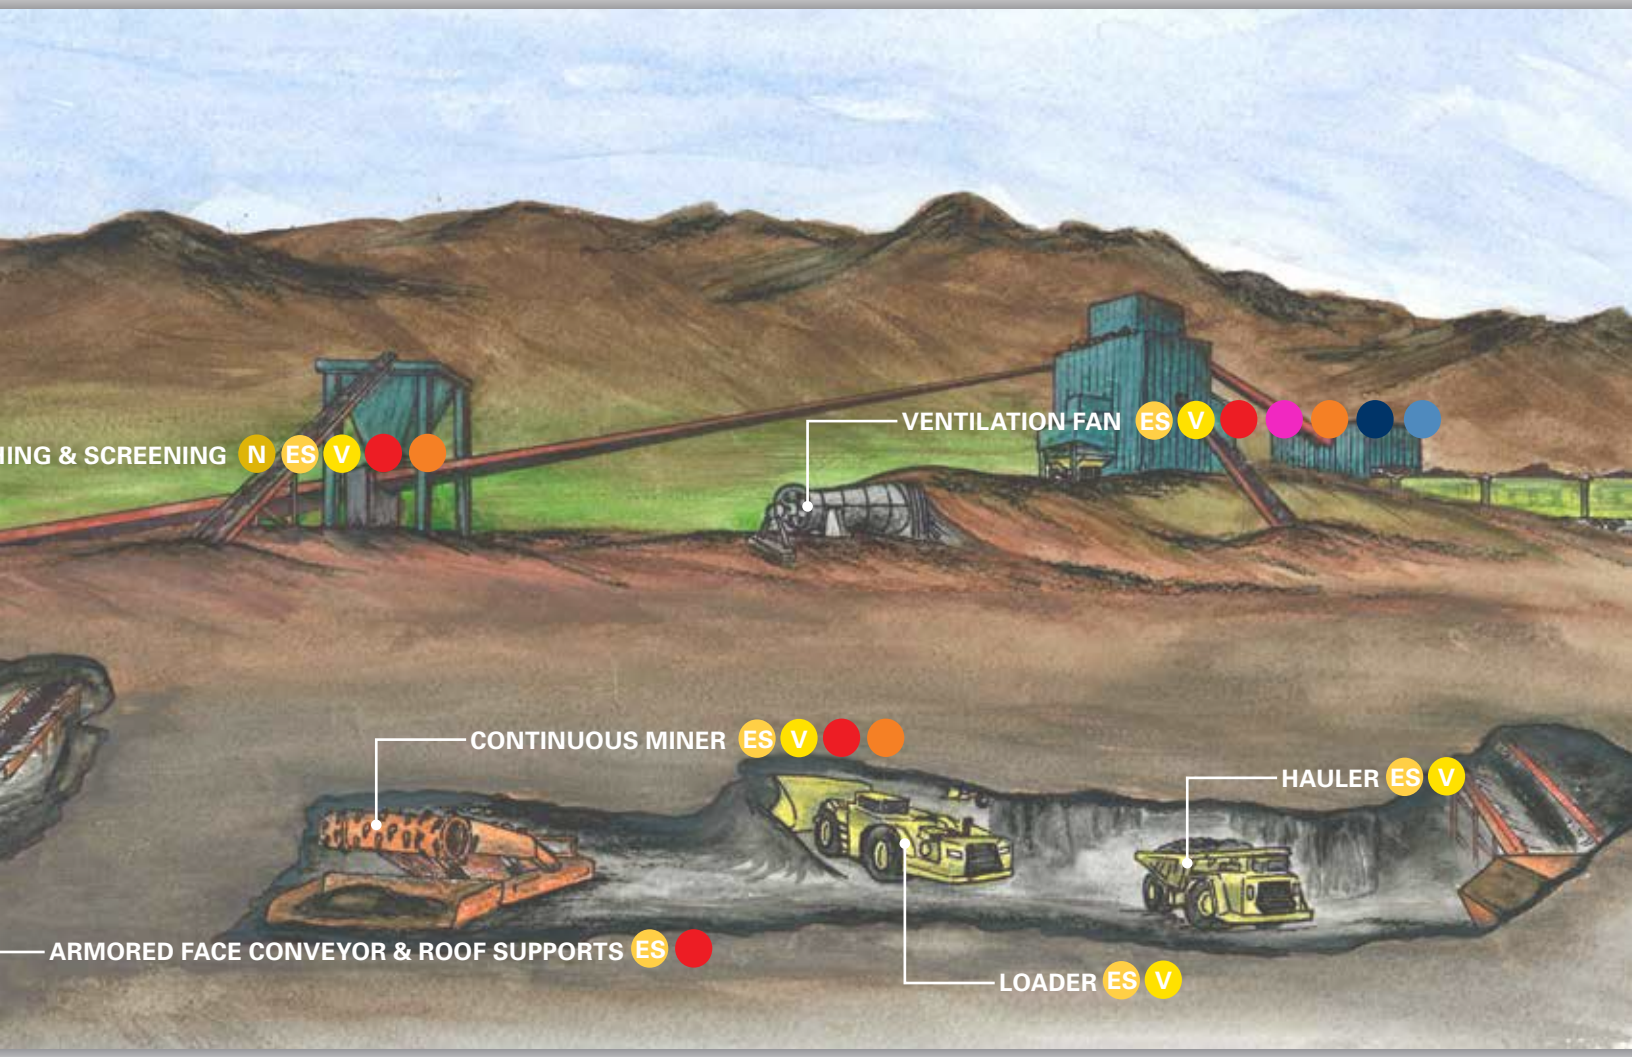

#### SPLIT GUARDIAN™

Its split design reduces costs associated with assembly and disassembly, plus it has all the benefits of a standard GUARDIAN™ bearing isolator.

#### MICRO-TEC® II

An ideal bearing isolator that has been designed specifically for mining applications. It has all the features of the standard GUARDIAN™ bearing isolator, with the addition of a special filtering system to trap airborne contaminants.

**MILL-RIGHT® OIL SEALS**

The MILL-RIGHT family of materials provide various levels of bearing protection so your mining application needs can be met in the most cost effective manner, while enjoying the confidence of a Garlock Klozure product.

**MILL-RIGHT® N, ES AND V OIL SEALS** (N) (ES) (V)

Specially engineered elastomers use the latest technology to give the new MILL-RIGHT family of materials up to a 90% improvement in abrasion resistance over other materials, the lowest wear and exceptional chemical and temperature resistance.

Garlock Klozure has an oil seal solution for you; with over 50 styles available, from solid to split, metal OD to rubber OD, assembled and bonded. Select your materials, select your styles and save your bearings.

**MECHANICAL SEALS**

Garlock Klozure’s mechanical seals provide an extensive service life and their versatility makes them suitable in a variety of applications.

**GPA** (dark blue circle)

Ideal for use in the harshest mining applications, because it requires no flush, is abrasion resistant, and proven in demanding slurry applications.

**GMP I SINGLE SEAL** (blue circle)

Single cartridge seal with a balanced design that is available in a variety of materials and is field repairable.
